Specialized pediatric dental care for infants, children, young adults, and those with special healthcare needs.

December 1, 2025

Dear Patients and Family,

Thank you for your trust and confidence in our practice. It is a privilege to provide pediatric dental care and to create healthier, brighter smiles in our community. We are writing to inform you that as of December 29th, 2025, we will be closing our Miles City, MT office. Until then, the office will remain open to provide pediatric dental care for scheduled patients, and any emergency dental care should they arise.

All active patients at our Miles City location will be provided with the option of transferring to our Billings, MT location, located at 2700 Grand Ave, Billings, MT 59102. Our fabulous team at the Miles City location will also continue with Pediatric Dental Specialists at the Billings location, so you can plan on seeing them in the future. We understand change, especially concerning healthcare delivery, can produce anxiety. However, rest assured, this move will not change the quality of care you receive from us. Our team of dedicated pediatric professionals from both offices will continue to provide you with the same level of care and attention you have come to expect from us. This consolidation of pediatric dental service locations allows us to continue to align best-of-class service with continuity of care. This move will enable us to expand our services and provide you with an even better pediatric dental care experience.

If you do not wish to transfer care to our Billings, MT location, we recommend scheduling with another dentist as soon as possible. Both the local and state dental associations can assist you with recommending a new dental care provider. Our Billings office would be happy to forward your records to your new dental care provider, upon signed written authorization directing us to release your records to the new provider. Pediatric Dental Specialists will continue to store your child's medical records in complete confidence, and we will continue to be available to you in accordance with Montana and federal law.

We will be happy to answer any questions you may have about our move. Please do not hesitate to contact us via email at smiles@pdsmtwy.com or phone: Billings office: (406) 652-5550. Please visit our website at www.pediatricdentalspecialists.org for additional contact information and for more information about our locations.

Thank you for your continued trust in our practice.
